Irrationality

The (irrational) desire to do something unique:
A newCO to make SW for spaceships and satellites
(in a country with no aerospace industry)
Why would someone do such a (stupid) thing?
We were poised to fail, but we didn't!
We shaped our culture back then

Aim high
Don't take no for an answer
Always do your best
Be brave
Trust and be trusted
Share
Take care of our team

Purpose:

To launch a successful high-tech
company in Portugal

The entrepreneurial way
To Help Build a Better and Safer World...
Wealth to serve the purpose

Critical Software:
build to last
